

## **Best practice-II**

Title of the practice “Go Green and clean campus”

### **Objective**

1. To maintain cleanliness and lush green campus with zero waste.
2. To plant saplings in the college campus.

**Content:** Today global warming have increased the frequency of natural calamities. As the college is committed to attain clean campus with the motto ‘Go Green’ it has become an important aspect of that goal. The aim of the practice is to create awareness about environment and the purpose is to free the campus from plastic waste and maintain clean and green campus.

**The practice:** Awareness programme by NSS cell on “Say No Plastic” “Free Tobacco Zone” is organised in the college. Saplings are planted inside the college campus and distribution of saplings on environment day with awareness regarding environment are held every year. The college follows an environment policy to maintain cleanliness and hygiene on the campus. Both students and teachers participate in awareness drive. The college has dustbin for different waste.

**Evidence of success:** The college has succeeded in maintaining a GO green free plastic free campus. Environment awareness campaign by the college have involved students and teachers in tree plantation drive to different houses in nearby college. The college is trying to follow a paperless office work to minimize environmental hazard.

### **Problems Encountered:**

1. Continuous supply of funds to plan and execute events.
2. Space limited to provide grand level events.
